

Umatilla Public Library  
352-669-3284

Setting up Kanopy on your TV is actually a two-part process, and it is much easier if you handle the initial registration on a phone or computer first. Think of it like booking a ticket online before showing up at the theater—it saves you from trying to type your long library card number and password using a clunky TV remote. Here is how to get Kanopy up and running on your TV without the headache.

## Part 1: Create Your Account (On a Phone or Computer)

If you already have a Kanopy account linked to your library card, you can skip straight to Part 2. If not, complete these steps first:

1. **Go to the Sign-Up Page:** Open a web browser on your phone or computer and visit <https://umatillafl.kanopy.com/>, then click **Get Started**.
2. **Add Your Library Card:** Enter your **UMATILLA** library card number.
3. **Create Your Login:** Enter your name and email address, and create a secure password.  
*Alternatively, you can choose to sign up instantly using an existing Google or Apple account.*
4. **Verify Your Email:** Check your inbox for a verification email from Kanopy and click the link inside to confirm your account.

## Part 2: Connect Kanopy to Your TV

Kanopy has official apps for **Roku, Apple TV, Amazon Fire TV, Android/Google TV, and newer Samsung Smart TVs.**

1. **Download the App:** On your TV. Turn on your TV, open its App Store (e.g., Roku Channel Store, Amazon Appstore, or Google Play), search for **Kanopy**, and download the free app.
2. **Open Kanopy and Request Code:** On your TV. Launch the newly installed Kanopy app on your TV and click **Log In**. The screen will display a specific **4-digit or 6-digit linking code** along with a web address. Leave this screen open.
3. **Enter the Code:** On your phone or computer. On your separate device (where you are already logged into Kanopy), open a web browser and go to [kanopy.com/link](https://kanopy.com/link). Type the exact code showing on your TV screen into the box and click **Link Device**.
4. **Start Streaming:** On your TV. Within a second or two, your TV screen will automatically refresh, logging you into your account. You're ready to browse!
